

# Pom-Pom Pets Craft Instructions

## MATERIALS:

- regular sized metal fork
- roll of yarn (Miss Ariel used size 4 yarn)
- 2 precut strings of yarn (approximately 5 inches)
- pipe cleaners
- eggshell (any size)
- scissors
- glue
- felt
- google eyes or beads

## STEPS:

1. While holding the fork horizontally, wrap the string from the roll of yarn around the middle of the prongs 50 times. Cut the yarn from the roll.
2. Take the first precut string of yarn and thread it between the middle prongs at the bottom of the fork. Then pull it around the wrap and back over the top until the ends of the yarn meet. Now tie them together tightly.
3. Slide the yarn off of the prongs. Wrap the second string around the first string to make it as tight as possible.
4. Next, use the scissors to cut the middle of the loops created from the previous step. This will open up your pom-pom. Trim the pom-pom to the desired length and fluff.
5. Cut approximately 3 inches off of the pipe cleaner. Shape into a "V". Twist the base of the "V" shape until it is twisted about halfway. Glue the base to the bottom of the pom-pom for the feet.
6. Cut the felt into a triangle for the beak. Adjust the size to fit the size of the pom-pom. Glue the beak to the middle of the pom-pom, and glue the google eyes on either side of the beak.
7. Wait for the pom-pom pet to dry. Glue the eggshell to the pet for the desired affect. Give it a hat, a seat, or cling it to the side!

Happy Creating!
