

Corn Craft Instructions

1. Cut a stretched oval shape out of the white paper (this will be your corn)
2. Cut your leaf shape out of the green paper (look at the example picture for inspiration)
3. Brush yellow paint onto some bubble wrap (raised bubble side), make sure it covers at least the same surface area as the oval
4. Press the white oval onto the bubble wrap, making sure the whole thing is touching yellow paint
5. Flip over oval and glue green paper leaves on the bottom (can let corn dry first)
6. You have your corn!
